This communication attempt will take place prior to transfer to a collection agency.

6. Haxtun Hospital District and collection agencies will not provide assistance after an account has entered legal court proceedings.

C. Eligibility Criteria for Uninsured Patient Financial Assistance

1. Haxtun Hospital District financial assistance employs a sliding scale discount that takes into consideration a patient’s household size and income.

2. Eligible patients are uninsured persons who receive inpatient or outpatient medically necessary services from Haxtun Hospital District and who are not eligible for coverage that would otherwise pay for these services. In addition, the patient’s household income (as defined below) must be less than 250 percent of the most current Federal Poverty Level guidelines.

3. Financial assistance determinations will be consistent among patients, regardless of their age, sex, race, creed, disability, sexual orientation, or national origin.

4. Financial assistance is generally secondary to all other financial resources available to the patient, including insurance, government programs, third-party liability and qualified household assets. Individuals with access to health insurance, COBRA coverage, and third party reimbursement for health services or governmental assistance, who elect not to enroll, fail to take advantage of or fail to maintain eligibility for such coverage may be excluded from receiving financial assistance.

D. Financial Assistance/Sliding Fee Determination Process

1. Sliding Scale Levels. Financial assistance is determined based upon a sliding-fee scale and is subject to the patient’s income and family size. In order to obtain financial assistance, the patient must establish (through completion of a Financial Assistance Application and submission of required documentation) that the patient’s annual household income is below 250 percent of the Federal Poverty Level.
